Fuel Type: Timber (Grass and Understory). A strong N wind will prevail on Thursday/Friday in the wake of a dry cold front. A brief shower may pass across the fire in association with the front, but it should not amount to a wetting rain. Wind will be in the process of settling down on Saturday. By Sunday, look for temperatures that will run from 5-10 degrees above normal for mid-July. The hot and dry air mass will also mean the development of poor nighttime. Humidity recovery this weekend. No rain in the forecast.
